

## POEP (Perinatal Orientation and Education Program) with POEP Simulation/Skills Days 2021 Information

### **COURSE DESCRIPTION:**

The POEP & Simulations/Skills course Educational Modules (AWHONN) provides the foundation for orientation to Perinatal Nursing as it blends online learning with five days of simulation scenarios and skill stations. POEP consists of 15 modules:

- Reproductive Health & Infertility
- Preconception & Interconception Health
- Physiologic & Psychosocial Adaptation to Pregnancy
- Process of Labor & Birth
- Perinatal Safety & Risk Management
- Complications of Pregnancy
- Perinatal Infections and Perinatal Loss
- Postpartum Assessment & Care
- Newborn Assessment & Nursing Care
- Neonatal Complications
- Cesarean Birth & Post Anesthesia Care

The Simulation/Skills Days consist of case study scenarios that use full body, human-like patient simulators for practicing bedside management of patients with complex disorders, including assessment and treatment. This process allows hands on practice to promote the application and synthesis of the POEP module content, all while allowing the participant to practice critical thinking, communication, decision making skills, and interventions in a safe learning environment.

**IMPORTANT: To prepare for each of the Simulation/Skills Days, participants must complete the corresponding POEP Modules, which range from 16-20 hours depending on the component content.**

### **COURSE OBJECTIVES**

- ◆ Promoting consistency and standardization in perinatal care processes and procedures
- ◆ Understanding current trends and best practices
- ◆ Developing or overhauling perinatal orientation or continuing education programs
- ◆ Establishing comprehensive, high quality care for mothers and infants, from preconception to post-birth education and home care
- ◆ Improving the mother's and baby's transition from hospital to home
- ◆ Reducing risk and complications of pregnancy

### **COURSE PRE-REQUISITES**

- Must have 2 - 4 months Unit Orientation prior to attending this course
- At minimum, must have completed "Introduction to Fetal Monitoring Course"  
<https://www.awhonn.org/general/custom.asp?page=IntroOnlineCourse> OR the Intermediate Fetal Monitoring course
- Must have completed correlating POEP Modules and Post Test with 80% accuracy
- Must present Completion Certificate the morning of the Simulation/Skills Day session

### **CE INFORMATION**

CE's are provided by the Association of Women's Health, Obstetric and Neonatal Nurses, which is accredited as a Provider of Continuing Education by the American Nurses Credentialing Center's Commission on Accreditation. AWHONN is approved by the California Board of Nursing, Provider #CEP580, for 67 CE hours for students participating in the POEP modules and the Simulation/Skills days.
